

WHY GO SOLAR?

- Huge savings on electricity bills
(upto 70 % Based on capacity of the system)
- Good annual returns *(upto 40%)*
- Enjoy free electricity for 15+ years
- 3-5 times cheaper than grid electricity
- Payback in 3-4 years
- Low maintenance & high property value
- Zero carbon footprint

CUSTOMERS FIRST

"I had a wonderful experience dealing with Naveen and his team. Very professional and dedicated team who did not cut corners or compromise on the quality of work. Neighbours who got their solar installation done by others also are praising the quality of work done at my home. ! Kudos guys!"

-Mr. Venkata Krishna, BHEL

"Simply Superb. Excellent service by taking responsibility for complete paperwork, shipment, installation, and making it ready for us"

-Mr. Rakesh Reddy, Boduppal

STEPS TO GO SOLAR

- 1 Site visit & a solar rooftop system plan tailoring your needs
- 2 End -to- End Documentation & seeking approvals
- 3 Material procurement & shipping to your doorstep
- 4 Rooftop installation & commissioning
- 5 Monitoring systems & aftersales

Avail residential subsidy & get your money back within 36months
